ON'T take any chances with this year's crops. Side-dress them with Chilean Nitrate of Soda-the world's only natural nitrate fertilizer. With prices and conditions as they are, it is more important than ever to make every acre produce to the very limit. Chilean Nitrate increases yield and quality. Brings late planted crops into quick maturity. It is the "make-sure" food for every crop you grow.

On cotton crops, 1,007 supervised demonstrations showed a return of \$5.70 for every dollar invested in Chilean Nitrate. On corn, 526 demonstrations showed that every dollar brought back \$3.40.
